

From mini to mammoth
Pansy Viola
offer BIG impact!

Pansy Viola offer BIG impact!

From the largest to the smallest, Goldsmith Seeds – by the leading Viola breeder Syngenta Flowers – offers a truly impressive and full range of Pansy Violas. Whether you want flowers that are mini, mammoth, trailing or something in between, Goldsmith Seeds has an assortment suitable for every type of culture and every season. And with the rainbow spectrum of colors, they can meet the most specific and demanding needs.

There's always something new in the Goldsmith Seeds Pansy Viola range. We test all our varieties in a selection of trial fields, and show them twice a year, at our Spring and Autumn Trials in Andijk, The Netherlands. At the 2012 Spring Trials, we launched the WonderFall™ trailing pansy series, which offers extreme trailing with unique colors. It joined our other series, including Mammoth (with its huge flowers), the strong colored Karma, Mariposa (the multiflora of pansies) and Penny: the number one selling viola worldwide! For 2013, we have 17 new varieties to delight you.

So turn the pages, and feel the impact of the world of Goldsmith Seeds Pansy Violas.

 **GoldsmithSeeds**

Mammoth™ Huge flowers for a maximum visual impact!

- **Very huge flowers and strong vigor**
- **Uniform in habit and flowering**
- **Very heat tolerant**
